

# BRILLIANT BEGINNINGS ACADEMY

## SECURITY CODE & PASSWORD FORM

For the additional safety of the children enrolled, Brilliant Beginnings Academy has adopted two different safety policies:

1. Family Created Password- This password will be created by you, and given to anyone whom you designate as an authorized pick-up for your child. Before this individual picks up your child the director needs to be notified of this arrangement. If you authorize an individual to pick up your child over the phone, please be aware that for safety reasons we will be calling you back to verify the authorization.
2. Security Code for access to Brilliant Beginnings Academy- To ensure that only families are entering our school, every family will choose a security code that will be used to enter the facility (through the front door, or through the playground).

Please help keep our children safe by keeping password and your security code private!
